Good Measure Giving Score Report: Islamic Society of Greater Houston

EIN: 23-7065716 · **Report date:** 2026-06-07 · **Data as of:** 2026-03-15

Your GMG Score: 34/100 · Impact 16/50 · Alignment 23/50 · Risk deduction -5

Why you're receiving this

Good Measure Giving (goodmeasuregiving.org) is a charity-evaluation platform for Muslim donors. Your organization is evaluated from public data — your website, IRS Form 990 filings, Charity Navigator, and Candid — and donors use the resulting score to decide where to give. This report shows you exactly what donors see, how each component of your score was earned, and where points are available. Every improvement below is something within your control.

How the score works

- **Impact (50 points)** — program effectiveness, weighted by what kind of organization you are. We don't grade an advocacy organization on meals served.
- **Alignment (50 points)** — fit for Muslim donors: zakat clarity, cause urgency, underserved space, track record, funding gap.
- **Risk (up to -10)** — deductions for governance red flags (low program spending, very small board, low reserves).
- **Data Confidence (0-1, shown beside the score)** — how much verified information sits beneath the evaluation.

Your Impact scorecard

Component	Your score	Status	What we saw
Cost Per Beneficiary	0/6	Missing data	Insufficient data for cost-per-beneficiary calculation
Directness	4/5	Strong	Delivery model: Capacity Building
Financial Health	0/7	Missing data	Working capital: unknown (UNKNOWN)
Program Ratio	0/5	Missing data	Program expense ratio: unknown
Evidence & Outcomes	2/10	Missing data	Evidence & outcomes: REPORTED (emerging org baseline)
Theory of Change	5/7	Partial	Theory of change: DEVELOPING
Governance	5/10	Partial	Board governance: baseline (2 members, emerging org)

Your Alignment scorecard

Component	Your score	Status	What we saw
Muslim Donor Fit	10/19	Partial	Accepts zakat (+2); Muslim-focused organization (+2); Islamic identity (+1); Asnaf: fi_sabilillah (+5)
Cause Urgency	4/13	Strong	Cause area: Religious Cultural (4/13)
Underserved Space	0/7	Partial	Well-covered space with mainstream reach
Track Record	6/6	Strong	Founded 1969 (57 years — 6/6)
Funding Gap	3/5	Partial	Revenue: unknown (moderate gap assumed)

Where you can gain points

We identified **up to 26 points** of headroom, listed by potential gain. These reflect what our pipeline could verify from public sources — if you already do these things but don't publish them, publishing is the fix.

Priority	Component	Currently	Potential gain	What to do
1	Muslim Donor Fit (Alignment)	10/19	+8	Clarify zakat allocation policy and eligible use categories for donors.
2	Evidence & Outcomes (Impact)	2/10	+6	Seek external evaluation or track outcomes over at least 3 years.
3	Financial Health (Impact)	0/7	+4	Publish current reserve levels and a board-approved reserve policy (often 3-12 months for most nonprofits).
4	Cost Per Beneficiary (Impact)	0/6	+3	Publish beneficiary counts consistently so cost-effectiveness can be assessed.
5	Underserved Space (Alignment)	0/7	+3	Expand services to underserved populations or geographies with limited non-profit coverage.
6	Theory of Change (Impact)	5/7	+2	Document a clear theory of change with an explicit causal pathway.

Risk deductions

Current deduction: **-5** (risk level: ELEVATED).

- **Operational, high severity:** Board too small: 2 members (source: Candid profile)

Data confidence

Your data-confidence badge is **LOW**. This sits outside the score itself — it tells donors how much verified information underpins your evaluation. The three signals:

Signal	Level	Value
Verification (50%)	NONE	0.00
Transparency (35%)	BRONZE	0.29
Data quality (15%)	MODERATE	0.67

To raise it:

- Submit for a Charity Navigator evaluation and keep your Candid (GuideStar) profile current — third-party verification is half of the data-confidence signal.
- Work toward a Candid Gold or Platinum transparency seal and publish audited financials on your website.
- Publish consistent program descriptions, beneficiary counts, and financial detail across your website and IRS filings so sources corroborate each other.

What's working in your favor

- Verified zakat-eligible status with clear policies for distribution to valid asnaf categories
- Comprehensive service model including weekend schools, Quran distribution, and funeral management

From our analysts

- Limited availability of standardized financial metrics and third-party evaluations
- Low data confidence due to missing granular financial reporting in public databases

How to update what we see

Our pipeline re-reads public sources on a recurring basis. To make improvements visible:

1. **Your website** — publish your zakat policy (if you accept zakat), program outcomes, beneficiary counts, board composition, and annual reports where a crawler can find them.
2. **Candid (GuideStar)** — keep your profile current; Gold/Platinum seals feed the transparency signal directly.
3. **Charity Navigator** — an up-to-date evaluation feeds the verification signal.
4. **IRS Form 990** — file on time; we read program ratios, reserves, and governance data from it.

Once you've made changes, contact us at goodmeasuregiving.org and we'll re-run your evaluation.

This report is informational, generated from public data as of the date above. Scores change as data changes. The ZAKAT-ELIGIBLE tag records a verifiable public claim by your organization, not a fiqh ruling — zakat eligibility judgments belong to donors and the scholars they consult. Methodology: goodmeasuregiving.org/methodology.
